Getting started

The LMS is a web-based learning platform that brings students, teachers, organizations, and administrators onto one site. Anyone can browse the public catalogue; signing in unlocks the experience tailored to your role.

01. The landing page

When you visit the site, you land on the marketing homepage. It headlines the brand promise, a search bar, the number of courses currently published, and quick "Get started" and "Sign in" actions.

Getting started · The landing page

02. Browsing courses without an account

Scroll down to see the most popular courses, each with its category, teacher, enrolled count, and an Enroll now button. Clicking Enroll while signed out takes you to the registration form with a return link, so you finish the sign-up and land on that course's enrolment page.

Getting started · Browsing courses without an account

03. What you get

Further down the page, the value-prop section summarises the four pillars of the LMS: video-first lessons, quizzes and assessments, verifiable certificates, and tools to teach and run cohorts.

Getting started · What you get

04. Creating an account

Tap Register from the header or the hero. Fill in your name, email, password, and pick a role (Student or Teacher). After you submit, a verification email is sent and you're signed straight in.

Getting started · *Signing back in*

For students

Students discover and enrol in courses, work through lessons, take quizzes and assignments, and collect certificates as they complete courses. Everything lives behind the Student dashboard.

01. Your dashboard

Signing in as a student lands you here. The dashboard surfaces your in-progress courses, recent announcements from your enrolled courses, and links to keep learning.

The screenshot shows the LMS Student Dashboard for a user named Demo. The top navigation bar includes links for LMS, Dashboard (active), Browse courses, and Certificates. On the right, there are icons for a refresh button, a notification bell, and a user profile dropdown showing 'Demo' as a student with a 'Sign out' button.

The main content area starts with a welcome message: 'Welcome back, Demo' with a hand icon and the text 'Continue your learning journey.' To the right are buttons for 'Browse catalog' and 'Refresh'.

Below the welcome message are three summary cards:

- 3** ENROLLED COURSES
- 33.3%** OVERALL PROGRESS
- 1** COMPLETED

The 'My courses' section displays three course cards:

- I** Intro to Machine Learning by Sara Nielsen. Progress: 0% complete. Button: Continue →
- M** Modern Angular: Signals, Standalone, and Beyond by Maya Patel. Progress: 100% complete. Button: Continue →
- F** Foundations of Financial Accounting by Diego Alvarez. Progress: 0% complete. Button: Continue →

The 'Upcoming deadlines' section shows a message: 'Nothing due soon.' with a flag icon.

For students · Your dashboard

02. Browse the course catalog

For teachers

Teachers build and run their own courses end-to-end: drafting modules and lessons, attaching assessments, grading submissions, and tracking student progress.

01. Teacher dashboard

Your home base. At a glance: courses you teach, recent submissions waiting for grading, and your active cohorts.

The screenshot shows the Teacher Dashboard in an LMS. The top navigation bar includes 'LMS', 'Dashboard' (active), 'My courses', 'Grading', 'Question bank', and 'Rubrics'. On the right, there are icons for refresh, notifications, and a user profile 'Demo TEACHER' with a 'Sign out' button. The main content area is titled 'TEACHER Dashboard' with the subtitle 'Everything you're running, every student making progress, and what's waiting on you.' Below this is a grid of four summary cards: 'COURSES' (1 published, 1 draft), 'STUDENTS' (0 actively learning), 'COMPLETIONS' (0 certificates issued), and 'TO GRADE' (0 All caught up). To the right of these cards are buttons for 'My courses' and '+ New course'. Below the grid is a section 'Your top courses' showing a card for a 'Draft TEST' course with 0 students and 0 lessons, and a 'View all --' link. At the bottom, there are two sections: 'Recent enrollments' (No enrollments yet) and 'Waiting to grade' (All caught up, When students submit assignments, they'll appear here).

For org admins

Organisation admins look after a single tenant: its branches, the teachers who deliver content there, and the courses scoped to the organisation.

01. Org admin dashboard

Top-line metrics for your organisation: branches, teachers, courses, and students.

The screenshot shows the 'Org Admin Dashboard' for 'Pioneer Tech Academy'. The top navigation bar includes 'LMS', 'Dashboard' (active), 'Branches', 'Teachers', and 'Courses'. On the right, there are icons for a clock, a bell, a 'Demo' button, an 'ORGADMIN' button, and a 'Sign out' button. The main content area is titled 'ORGANIZATION ADMIN' and 'Pioneer Tech Academy' with the subtitle '/pioneer-tech' and a description 'Hands-on training in modern software engineering — from fundamentals to production.' Below this are five metric cards: 'BRANCHES' with value 2, 'TEACHERS' with value 6, 'STUDENTS' with value 21, 'COURSES' with value 6, and 'PUBLISHED' with value 4. A 'Branches' section follows, with a description 'Where the work happens. Manage them from the Branches page.' and a 'Manage branches →' button. It lists two branches: 'EU Remote' (EU) with '2 teachers - 10 students' and 'Pioneer Tech Academy HQ' (HQ) with '4 teachers - 11 students'.

Metric	Value
BRANCHES	2
